DETAILED ACTION

Response to Amendment

1. Receipt of applicant's preliminary amendment filed 5/31/01 is acknowledged. The preliminary amendment has been entered.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, 19-23, and 27, drawn to a waste gas treatment system wherein the waste gas is combusted.

Group II, claim(s) 14-18, and 24-26, drawn to a dust remover for a pipe wherein the dust remover incorporates a scraping member

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I does not include any details of a scraping member, and the invention of Group II is a dust remover of general cleaning application for any pipe incorporating technical features relating to a scraping member.

Art Unit: 3743

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
